

Fall Immunization Reminder for Kindergarteners and 6th graders!

Just a friendly reminder that the following grade levels require further vaccinations for next fall:

4K going into **Kindergarten**: additional vaccinations of polio, MMR, and Varicella (chicken pox) are required so that a student has had 4 polio, 2 MMR, & 2 Varicella.

5th graders going into **6th grade**: need a Tdap (adolescent tetanus, Diphtheria, and Acellular Pertussis) an additional Varicella immunization (to total 2 Varicella doses).

Please plan ahead! Have your child vaccinated this summer as there is always a mad rush right before school starts!

If you have any questions regarding immunizations, please email Linda Rasmussen, the school nurse at lrasmussen@uges.k12.wi.us
